New Partner – Cryoandmore GbR

We are delighted to announce Cryoandmore, based in Germany – as the new NanoScience Partner for our Low Temperature Optical products for the DACH region. The company has a growing reputation as an innovative company, delivering professional cryogenic systems and solutions for more than 13 years. Cryoandmore is committed to providing exceptional customer service and we are confident that our customer base in the DACH region will be enhanced as we work together.

Celebrating 60 years at OI

As you will know, 2019 is our 60th Anniversary year and we are celebrating this achievement in a variety of ways across the world. At our Head Office, over 400 people attended the celebration. Sir Martin Wood and Lady Audrey Wood attended the day-long celebration and cut the celebratory cake. A Sequoiadendron Giganteum was planted to mark the occasion. It was not only a day for recognising and celebrating our 60 year heritage but also a day to look forward to the future.

New OI careers webpage launched

We are delighted to share our new Oxford Instruments careers page with you. By giving an insight in to our culture and by sharing stories about the impact of our products and the work we do for our customers, our new careers page helps to show the world what it is like to work at Oxford Instruments. By raising our profile as a leading employer now amongst your networks, you may generate some interests that will help us to find the right person for a number of positions available now at Oxford Instruments. [Click here](https://nanoscience.oxinst.com/) to visit the Webpage.
